5. Once you are logged in, locate your course site(s). Courses are listed on the main page by:

- **Semester and Year**
 - **then by Division**
 - **then by Course Title**

6. Once you've located your course, click on its title.

7. To **enroll** in a course you'll need the course's **Enrollment Key**. **Contact your professor** if you do not yet know the key.

NOTE: enrollment keys are case sensitive and may include the semester code and year. Example: **habitusF13**

8. Enter the **enrollment key** in the space provided and click the **Enroll me in this course** button. Moodle will 'register' you in that course and bring you to that course's main page.

Note: When you go back to Moodle's main page after completing this final step, you'll find a direct link to the course (or courses) you've added in your **My Courses** block in the top left area of your screen.
